

SMIT JITENDRABHAI KAVA

Junior Software Engineer | MERN Stack Developer

+91 9638986705 | smitkava21@gmail.com | Jetpur, Rajkot, Gujarat, India

PROFILE

Software Engineer with 1 year of hands-on experience (internship + full-time) building and maintaining production-grade web applications using React, TypeScript, Node.js and .NET Core Web API. Holds a Master of Computer Applications (MCA) and a B.Sc. in Information Technology, completed with distinction. Strong foundation in front-end and back-end development, database design, and REST API integration, with a particular passion for the MERN stack (MongoDB, Express.js, React, Node.js). Known for writing clean, maintainable code, picking up new frameworks quickly, and collaborating effectively within agile development teams. Currently seeking a full-time Software Engineer / MERN Stack Developer role where I can take on greater ownership, sharpen my full-stack skills, and contribute to building reliable, scalable products.

KEY STRENGTHS

- Full-stack development experience across React.js / TypeScript front-ends and .NET Core Web API back-ends.
- Solid grip on relational and NoSQL databases — MS SQL Server, MongoDB and phpMyAdmin/MySQL.
- Comfortable working directly with third-party and REST APIs, from integration through authentication.
- Fast learner who has independently picked up React, TypeScript and .NET Core Web API on live projects.
- Strong problem-solving mindset with hands-on exposure to debugging, testing and code review cycles.

WORK EXPERIENCE

Etech International — Junior Software Engineer

Dec 2025 – Present

Internship: Dec 2025 – May 2026 | Full-Time: Jun 2026 – Present (Total: 1 Year)

- Working on NextScript (nextscript.co.uk), a pharma-domain web application, developing the front-end in React and TypeScript and the back-end in .NET Core Web API.
- Designed and consumed RESTful APIs to connect the React/TypeScript front-end with the .NET Core back-end, ensuring smooth data flow and error handling.
- Collaborated closely with senior developers to integrate third-party APIs and follow REST API best practices, code standards and version control workflows using Git.
- Actively involved in code reviews, bug fixing, unit-level testing and feature enhancements within an agile team environment.
- Worked on UI improvements and component reusability in React to improve development speed and consistency across modules.

Company Product (Internship): VumaxPro (Drilling Industry Software) — Contributed to an existing production product — built and maintained modules end-to-end during the internship period, gaining exposure to a large, real-world codebase.

ACADEMIC PROJECTS

User Management System

React.js, TypeScript, .NET Core Web API

- Built a web-based user management system to add, update, delete and list users with a modern React + TypeScript interface.
- Created secure RESTful APIs using .NET Core for managing user data; integrated third-party APIs for authentication.

- Focused on clean component structure and reusable UI elements to keep the codebase maintainable.

College Attendance Management System

PHP Framework, MySQL (phpMyAdmin)

- Built a complete attendance system with separate admin and teacher logins to manage student and employee attendance.
- Enabled teachers to mark daily student attendance through a secure, role-based login panel.
- Allowed admins to view day-wise attendance and generate custom date-range reports for all employees.

Library Management System

C# (.NET Framework - Windows Forms), MS SQL Server

- Developed a desktop-based library management system supporting insert, update, delete and view operations on book records.
- Integrated date/time logging for book addition and modification events, with validation and error handling to ensure accurate data entry.
- Designed user-friendly Windows Forms for efficient day-to-day interaction with book data.

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

ISTAR College, Vallabh Vidyanagar | Sem I CGPA: 8.40 | Sem II CGPA: 8.80

B.Sc. Information Technology (with Distinction)

2022 – 2024

CHARUSAT University, Changa | CGPA: 7.62

12th (HSC)

May 2021

A Success School, Jetpur | Percentile Rank: 57.22

10th (SSC)

March 2019

Shree Ankur Vidhyalaya, Jetpur | Percentile Rank: 84.76

TECHNICAL SKILLS

Web Development: HTML, CSS, JavaScript, TypeScript, React.js, Node.js, .NET Core Web API, PHP Framework

Programming Languages: Java, Python, C, C++

Databases: MS SQL Server, PostgreSQL, MySQL / phpMyAdmin

Tools & Platforms: Git, GitHub, Visual Studio Code, Visual Studio, Postman.

Other: REST API design & integration, third-party API integration.

AREAS OF INTEREST

- MERN Stack Development (React.js, Node.js)
- .NET Core Web API and full-stack application architecture
- Building scalable, well-structured REST APIs and clean front-end component systems
